## Do you have an anxious pet?

Use this checklist to see if your dog or cat struggles with environmentally induced stress.

### When faced with a trigger of anxiety, does your dog:

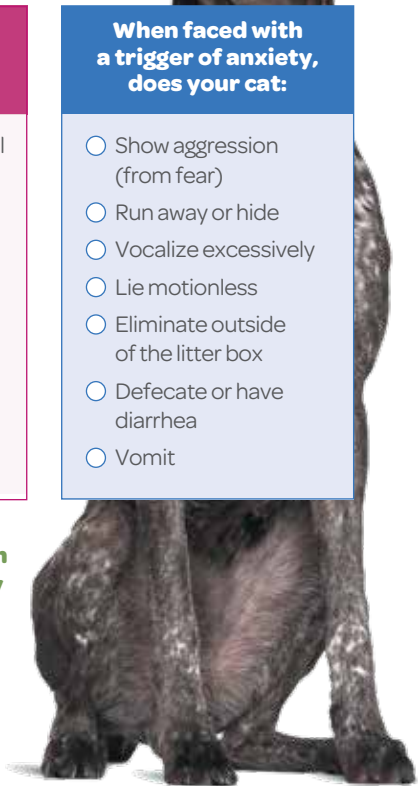

- Drool more than usual
- Pant more than usual
- Bare his or her teeth
- Tremble, tuck his or her tail, or hide
- Lick more than usual
- Bite at him- or herself
- Vocalize excessively

### When faced with a trigger of anxiety, does your cat:

- Show aggression (from fear)
- Run away or hide
- Vocalize excessively
- Lie motionless
- Eliminate outside of the litter box
- Defecate or have diarrhea
- Vomit

**If you checked more than 1 of these items, you may have an anxious pet.**

Talk to your veterinarian about ways you can help your pet live life with more confidence.

# Fear and stress affect everyone, including dogs and cats.

Environmentally induced stress is a common issue for pets. From “laid-back dogs” to “crazy cats,” every animal can feel anxious at times.

## Some common triggers for dogs include:

## Some common triggers for cats include:

Many of the problems associated with “difficult pets” may actually be manageable, anxiety-based behavior.

## Discover a solution inspired by nature

for managing pet anxiety.

---

ANXITANE® (L-Theanine) Chewable Tablets  
and the right behavior program may  
help calm your anxious dog or cat.

---

### **ANXITANE Chewable Tablets are a palatable supplement that:**

-  Helps manage environmentally induced anxiety
-  Tastes great to both dogs and cats
-  Can be given daily or as needed when your pet will be exposed to stressful situations

**ANXITANE Chewable Tablets  
contain Suntheanine®, a pure  
synthetic form of L-Theanine.**

L-Theanine is an amino acid present  
in green tea that promotes relaxation  
without causing drowsiness.

## Have a relaxing conversation about your pet's stress.

Here are a few tips on talking to your veterinarian  
or clinic staff about your pet's fear and anxiety.

### If you think your dog or cat may be exhibiting signs of anxiety, make sure to:

- Describe the situations that cause your pet stress
- Explain what behaviors your pet displays when seeming anxious
- Ask about setting up a behavior program to promote relaxation
- Ask how ANXITANE Chewable Tablets can help

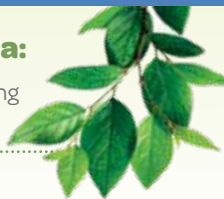

**Remember,** anxious pets may benefit from behavior modification therapy and ANXITANE Chewable Tablets.

# Give your pet the gift of relaxation

with ANXITANE® (L-Theanine) Chewable Tablets.

## ANXITANE Chewable Tablets are a:

- Supplement for dogs and cats demonstrating signs of mild-to-moderate anxiety
- Tasty option both dogs and cats will enjoy
- Supplement that has been proven to help pets relax in stressful situations<sup>1-3</sup>
